SILVER PARTY
STATE
Convention

HEADQUARTERS OF THE STATE CENTRAL COMMITTEE OF THE SILVER PARTY.
Reno, Nevada, June 15, 1900.

AT A MEETING OF THE STATE Central Committee of the Silver Party of Nevada, held at Reno, Nevada, on April 12, 1900, the following resolution was adopted:

Resolved, That the communication of the Democratic State Central Committee in regard to fusion, is met with favor by this body, and that a Committee be appointed to confer with a like committee from that body to arrange that both conventions meet at the same town and time, and that the final question of fusion be left with the conventions.

In compliance with the above resolution, the acting chairman of the State Central Committee appointed such committee, and in due time the following report was filed:
Reno, Nevada, April 14, 1900.

To the Chairman and Secretary of the Silver Party State Central Committee—
We, your Committee on Conference beg leave to report as follows:
We met a like committee from the State Central Committee of the Democratic party, and have agreed with the said Committee, that the

SOME SIGNS OF THE TIMES.

There will be no harm in looking into some of the signs of the times, as they have developed and have been given out by those in authority in the last two decades, and particularly in the last four years. It does not occur to a large body of the people that there is very little regard shown for the fundamental law of the country. The constitution seems to have lost its binding force upon certain of those who are sworn to support it, which is a sign of the times that is full of meaning respecting the present, and also the future. The disregard there is for its provisions at this time will lead, if continued, to its overthrow in the future.

The one will follow the other in natural order, as night in the order of nature follows day. The violations of its provisions are open and notorious, which is an evidence of disregard by those in authority for a republican system of government. The open and notorious violations there are of its provisions do not only show a disregard for them, but there is connected with a disregard an evident dislike for its requirements, or the slurs there are so often thrown upon them would not be heard from those who are ignorant of its provisions and who give forth sentiments they have learned from others, who are aware of their binding force under our system of government.

The sign of the times given by the Governor of Idaho when there was trouble at Wardner, in that State, is not assuring. There were persons in that State who violated the law by blowing up a mill owned by a mining corporation. There was some difficulty between the mine owner, or corporation officials, and a miners' labor organization, which had taken a very acute form, and bad feeling was a result of the feud. The mill was destroyed, or badly injured, and the miners' organization was accused by the corporation as the cause of the injury. There were no other violations of law or any disturbance of the peace of the community from other causes. There were no conditions present that could not have been controlled by the local authorities, and no cause existed that would prevent the punishment of those who were guilty of a destruction of property; but the President was requested to send into the State of Idaho United States soldiers, ostensibly to protect private property of a mining corporation against an imaginary lawless community that had no foundation in fact.

The President complied at the request of the Governor of the State and those who were identified with the corporation. In all there was present at Wardner there was no cause under the constitution to send troops to Idaho. The language of the constitution upon the subject is: "The United States shall guarantee to every State in this Union a republican form of government, and shall protect each of them against invasion, and on application of the legislature, or of the executive, when the legislature cannot be convened, against domestic violence." When the whole evidence is carefully examined which was taken before a committee appointed by the House of Representatives last winter, there was no cause for sending United States troops to Wardner, or for declaring marshal law. The most that could be claimed from the evidence is that something like a riot occurred, including almost a thousand persons, which was caused by a difference between a mining company and certain individuals who were present when the mill was destroyed, all of whom dispersed and went quietly to their homes and thereafter remained at their homes.

There was no resistance to any officer or to the service of any legal process. There was no opposition to legal authority at any time except in the commission of the crime. There was nothing to prevent the legislature from assembling peaceably upon a call by the governor. The sheriff of the county of Shoshone was not even consulted about his ability to keep order. The militia of the State was not called on by the governor for a very good reason, which was, that they were not required. In short there was not a condition present that brought the matter within constitutional power of the governor of Idaho to demand or within the constitutional authority of the President to employ troops.

It was clearly a violation of the Constitution by the executive of the State of Idaho and the executive of the United States. It was also a violation

of the statutes of the State of Idaho, which were submitted as a part of the evidence taken in the investigation before the committee. It was clearly shown that in issuing his proclamation declaring an insurrection in Shoshone county that the governor acted in an arbitrary manner and without authority. There was absolutely no cause for declaring marshal law or calling for United States troops.

The following telegrams were received by the governor at Boise, Idaho, from the sheriff of Shoshone county: "Wardner, Idaho, April 26, 1899.—Frank Stenness, Boise: Your telegram received. Am on the ground. All is quiet. No armed mob. Matters are orderly. Will do all in my power to preserve order. The county authorities were not appealed to until 10 A. M. this morning. James D. Young, Sheriff."

The next day the following was received: "Frank Stenness, Boise.—Trouble with Last Chance settled. Union men satisfied. No disturbance. James D. Young, Sheriff."

On the 29th after the above telegrams were received by the governor, about eight hundred men were assembled at Wardner and destroyed a concentrator and some adjoining buildings and then went away. When the violation against law and property had been made, the guilty parties could have been arrested and punished, but there was no effort to do so by any one. Marshal law was proclaimed; soldiers were sent by order of the President. A bull pen was made and the most unlawful and disgraceful proceedings were instituted against innocent people, which is to. Then a result of military rule.

RENO ON THE UP GRADE

The School Census Evidences a Healthy Increase in Population.

J. A. Bonham has completed the school census of Reno. The figures show an increase of 69 over last year. They are summarized as follows:

Number of girls between six and eighteen, 514; number of boys between six and eighteen, 564; total, 1078. Number of children under six, 309; Number between eighteen and twenty-one, 101. During the past year 818 attended the public schools.

These figures not only show a growth for Reno of nearly seven per cent but they indicate what the Federal census returns will approximate. The rule is to multiply the number of school children by five. To this product 200 should be added on account of our floating population. The result is 5790.

Hall's Catarrh Cure is the only positive cure known to the medical fraternity, Catarrh being a constitutional disease requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. THE MINING BOOM. We Have Them and You Want Them!

PROSPECTS AND MINES

How Things Are Being Whooped Up in Reno Mining District.

Professor R. D. Jackson expected the Wedekind bonanza for W. A. Kelley this week.

Pay rock is reported to have been struck in every direction from the Wedekind mine.

Another carload of bullion was shipped last week by the Electric Mining & Reduction Company.

When even the busy assayers shut up shop and take to the hills it looks like something's doing.

There is a two-foot strip of red oxide of copper in the bottom of the Redman & Holesworth incline.

Steve Currie is running a 1200-foot tunnel to tap his copper ledge on Peavine. He is now 60 feet underground.

Redman & Holesworth have another carload of ore on the station platform. It will be shipped to Golconda this week.

The shaft on the Copper Queen is still in ore. Superintendent Outts says that the deposit is steadily growing richer.

Henry Riter is kept on the jump at his mine. His rock is being chewed up at a great rate at the Reno reduction works.

Last Saturday Messrs. Hopkins and Loughon struck a formation just beyond the pest house that is a dead ringer for Wedekind's stuff.

Every lively team in town, and private rigs galore were used to take prospectors to the hills Sunday. The huge quartzite dyke was swarming with people.

Another shipment will be made from the Jumper and Go Down claims. The ore is bornite and black oxide, showing free gold. It will mill around \$150 a ton.

On one of the Dogskin mountain claims the owners have chlorided 20 sacks of copper ore assaying from 40 to 52 per cent, six ounces of silver and a dollar in gold.

A proposition is on foot to test the bed rock gravel in the fields below the new bonanza. As the ore is free milling and decomposed there ought to be good prospects for pay.

News is eagerly hoped for of a big strike in the rotten quartzite dyke north of town. This would give encouragement for deep shafting all along the lode from Copper Gulch to the English mill.

To evidence the intense mining excitement that is now beginning to rage, it might be mentioned that Saturday night a number of prospectors slept on the ground in order to get first extensions on the Barton-Riter-Parry-Seidmore locations.

Jacob Gooding & Roy Stoddard came in from their silver mine last night. They are running for their big ledge in the juniper hills. On the surface it assayed from \$3 and 10 ounces up to \$15 and 108 ounces. If they hit it as rich underground they will put up a mill.

Ready for the Rush.

Proprietor Fitzgerald of the Palace has closed his restaurant and is renovating it from top to bottom. It will be opened in about ten days and will be epic, span and elegant. The services of a first class chef have been engaged. In conversation with a reporter Mr. Fitzgerald said:

"I believe this is going to be the liveliest town on the coast this fall. Reno will have a dozen paying mines, and the hotels will be taxed to their full capacity. I'm preparing for the reception of my quota of the guests."

Liverymen Reap a Harvest.

The stables of Reno were silent and deserted Sunday. Robert Parry says that all his teams were out by 8 o'clock. The same story was told by the other liverymen.

Mr. Parry is of the opinion that this summer and fall will be the liveliest Reno has ever experienced, at least in the livery line. Horses that can be tied to sagebrush will be most in demand.

A Gold and Silver Brick.

Mr. Burton brought a sixteen-pound bar of bullion to the Washoe County bank for safe keeping last night. It was the result of reworking the findings from the Peavine and Wedekind ore.

Forty pounds of this amalgam were obtained from the Burton Electrical and Amalgam Co. The findings are now practically worthless.

Died of His Injuries.

Joseph Perrella died Sunday at his home near Hoffacker's as the result of injuries received a few days ago while driving a fractions horse. He was aged 63 years and was a respected citizen. The funeral will take place today from his late residence at 1:30. Services will be held in the Catholic church. Interment in Catholic cemetery.

SILVER, GOLD AND COPPER

Hayden and Ratliff Find What We Are All Looking for.

James Ratliff and Judge Hayden have that comfortable feeling today which only big assays can impart. They are operating two ore three miles north of the Wedekind bonanza, near the Eight-mile house.

Two ledges have been struck on their property. One is a gold and silver proposition, carrying both metals in native form. The rock, Mr. Ratliff informed the JOURNAL reporter, runs from \$90 to \$250. The ledge is from a foot to sixteen inches in width, and is walled by porphyry and slate. At a depth of twelve feet the ledge looks to be in place and permanent.

The other ledge is a stunner for copper. An assay made yesterday returned 18 ounces of silver and 36.21 per cent copper, the metal being in the form of red, brown and black oxides. The ledge is about the size of the gold and silver proposition. Development work will be carried on energetically.

Brave Men Fall

Victims to stomach, liver and kidney troubles as well as women and all feel this results in loss of appetite, poisons in the blood, backache, and tired, listless run-down feeling. But there's no need to feel like that. Listen to J. W. Gardner, Idaville, Ind. He says: "Electric Bitters are just thing for a man when he is all run down, and don't care whether he lives or dies. It did more to give me new strength and appetite than anything I could take. I can now eat anything and have new lease on life." Only 50 cents at S. J. Hodgkinson's Drug Store Every bottle guaranteed.

Remarkable Cure of Rheumatism.

KENNA, Jackson Co, W. Va.

About three years ago my wife had an attack of rheumatism which confined her to her bed for over a month and rendered her unable to walk a step without assistance, her limbs being swollen to double their normal size. Mr. S. Maddox insisted on my using Chamberlain's Pain Balm. I purchased a fifty-cent bottle and used it according to the directions and the next morning she walked to breakfast without assistance in any manner, and she has not had a similar attack since.—A. A DASH OF COLD WATER

A Doubting Thomas Don't Take Stock in the Mining Boom.

We deem that the following extract from last evening's contemporary is worthy of greater publicity than the Gazette's columns could give it. Hence we republish it for the benefit of the hundred or more "fakirs" who are out on the big dykes sinking on pay rock or good prospects:

"For Reno to become overly excited, and tell of rich strikes made where in fact there is only a prospect to base such a rumor upon, will do the mining interests and the town of Reno more harm than anything else, and the Gazette hopes that our people will not misrepresent the mining outlook by telling tales of fabulously rich finds that a man with half an eye and an assayer's outfit will know as a fake.

"The Gazette has heard many stories of rich strikes made in copper on Peavine mountain, and if it should publish all the raw yarns that have been told it would give the mining outlook in this section a black eye, for the stories circulated would not bear investigation."

Killed by the Cars.

Sunday evening a Chinaman named Quong Chang, an employee of a local laundry, met instant death. He attempted to cross the track on Virginia street in front of the east-bound passenger. The locomotive struck him and he was thrown about thirty feet. He lived but a few seconds.

An inquest was held and a verdict of accidental death rendered.

The Indians Return.

Six Indian boys arrived from Carlisle, Pennsylvania, yesterday. They had been sent from the Carson Training school to form part of the Indian band that was to make the Paris Exposition welkin ring.

Somewhat, the scheme fell through and the boys returned minus a trip across the briny wave.

A Store Burned.

At an early hour yesterday morning the general merchandise store at Vin-ton was burned. The property was owned by the Foresters, and the stock belonged to the firm of Stephenson & Dots: It is estimated that the loss will reach \$6,000, with insurance at half that amount. The fire is believed to have been incendiary.

A Dressing Contest.

This evening the Quaker Doctors, in addition to their regular program, will give a dressing contest for the boys. Six boys will place their hats, coats and shoes in a barrel, and the boy who gets his clothing on first will be given a cash prize. The dog Dandy will also make his high dive.

TWAIN ARE MADE ONE

Wedding of Mr. Merklinger and Miss Riley Sunday Night.

James G. Merklinger and Miss Jennie Riley were married Sunday evening at the home of the bride's parents on Scott street.

The ceremony was performed by Rev. E. F. Hudson. Miss Sophie Cross was maid to the bride and Charles Prime officiated as best man.

The guests were limited to twenty—a few relatives and intimate acquaintances. At the conclusion of the ceremony a delightful wedding supper was enjoyed.

The guests then escorted the bride and groom to their cozy residence at 405 Fourth street, where we hope that, as the fairy stories end, they may "live happy forever afterwards."
